Instruccions

- Per torns, tirem el dau i avancem tantes caselles com ens indica. 
- En cadascuna de les caselles trobarem un repte matemàtic que caldrà resoldre. Procurem que siguin ells que descobreixin que han de fer en cadascuna de les caselles. Poden resoldre-ho sols, demanant ajuda als companys o fent us d'una pista. 
- En les caselles on trobem **objectes**, que trobem?quants n'hi ha? Els comptem i avancem fins al nombre que representa aquella quantitat.

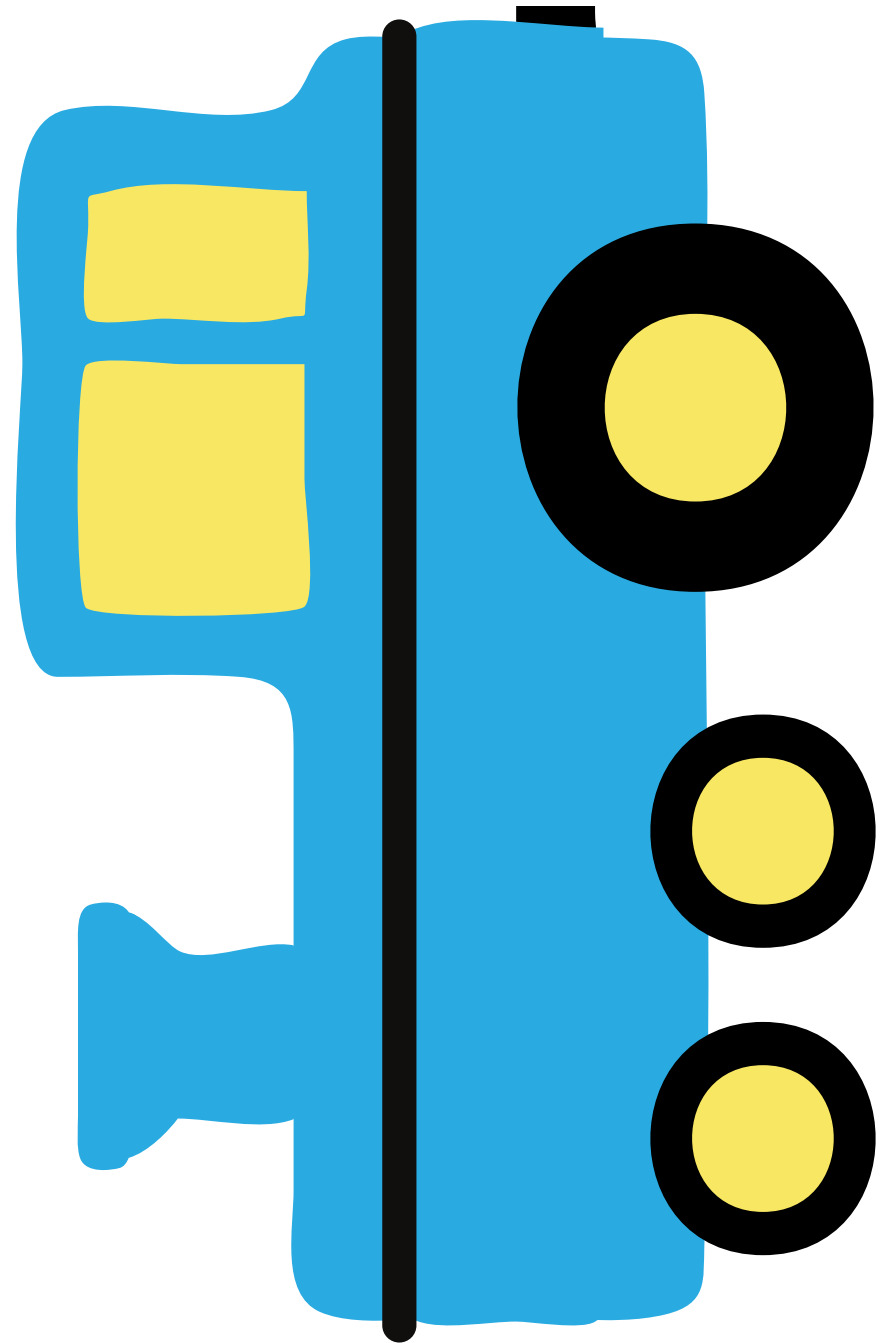

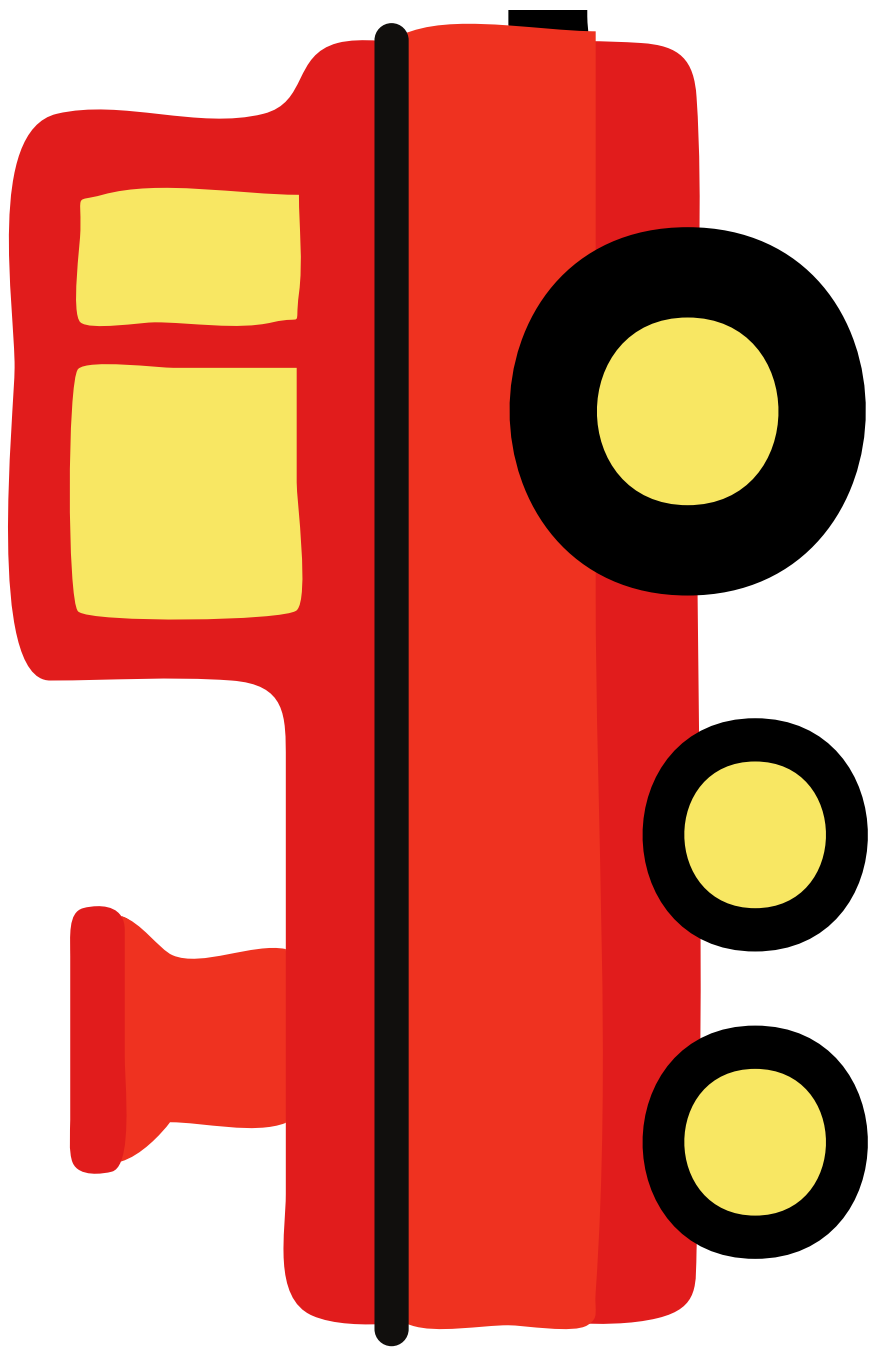

- Quan trobem una **figura geomètrica**, cal identificar en una targeta objectes que tenen aquella forma i posar-hi una pinça al damunt.

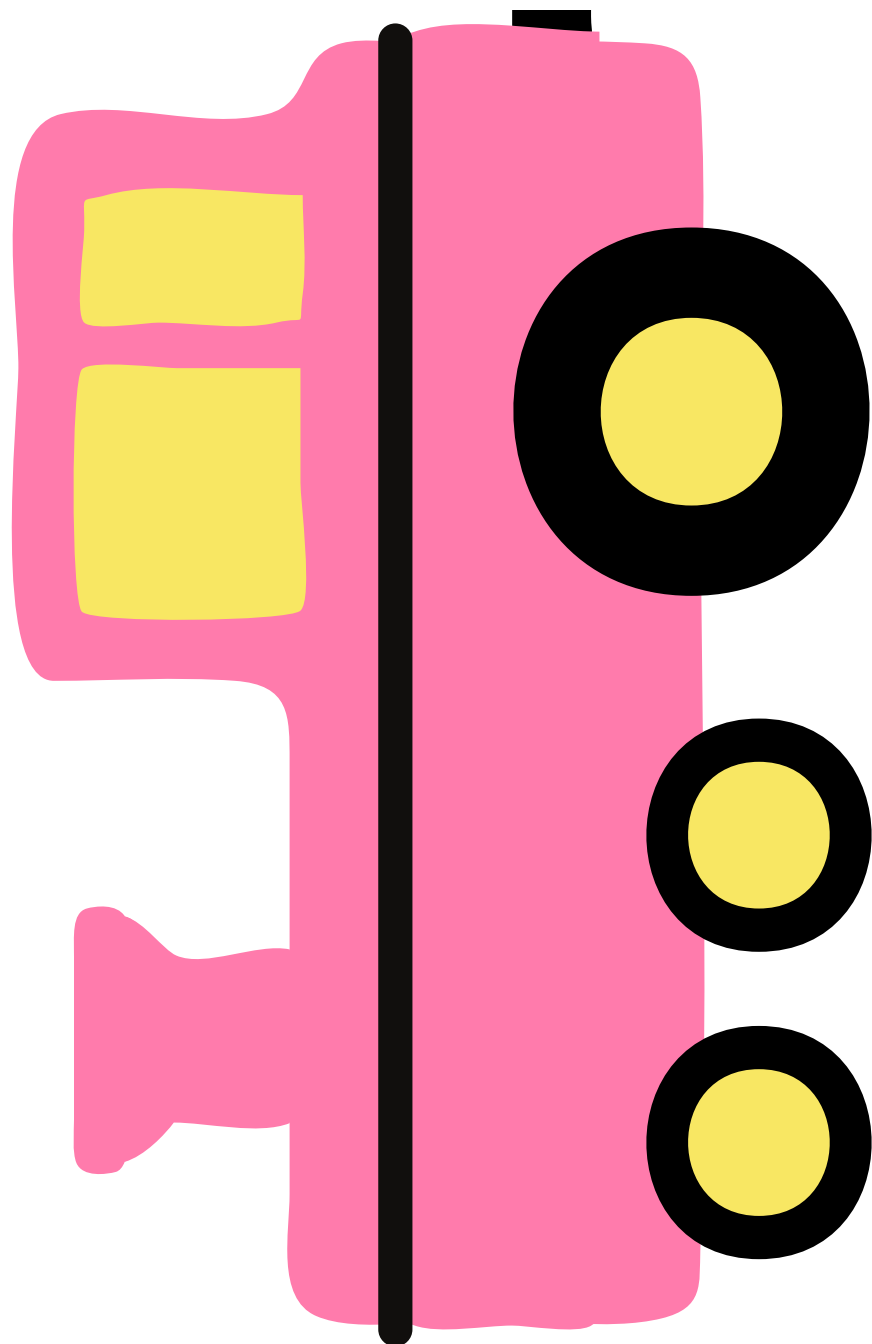

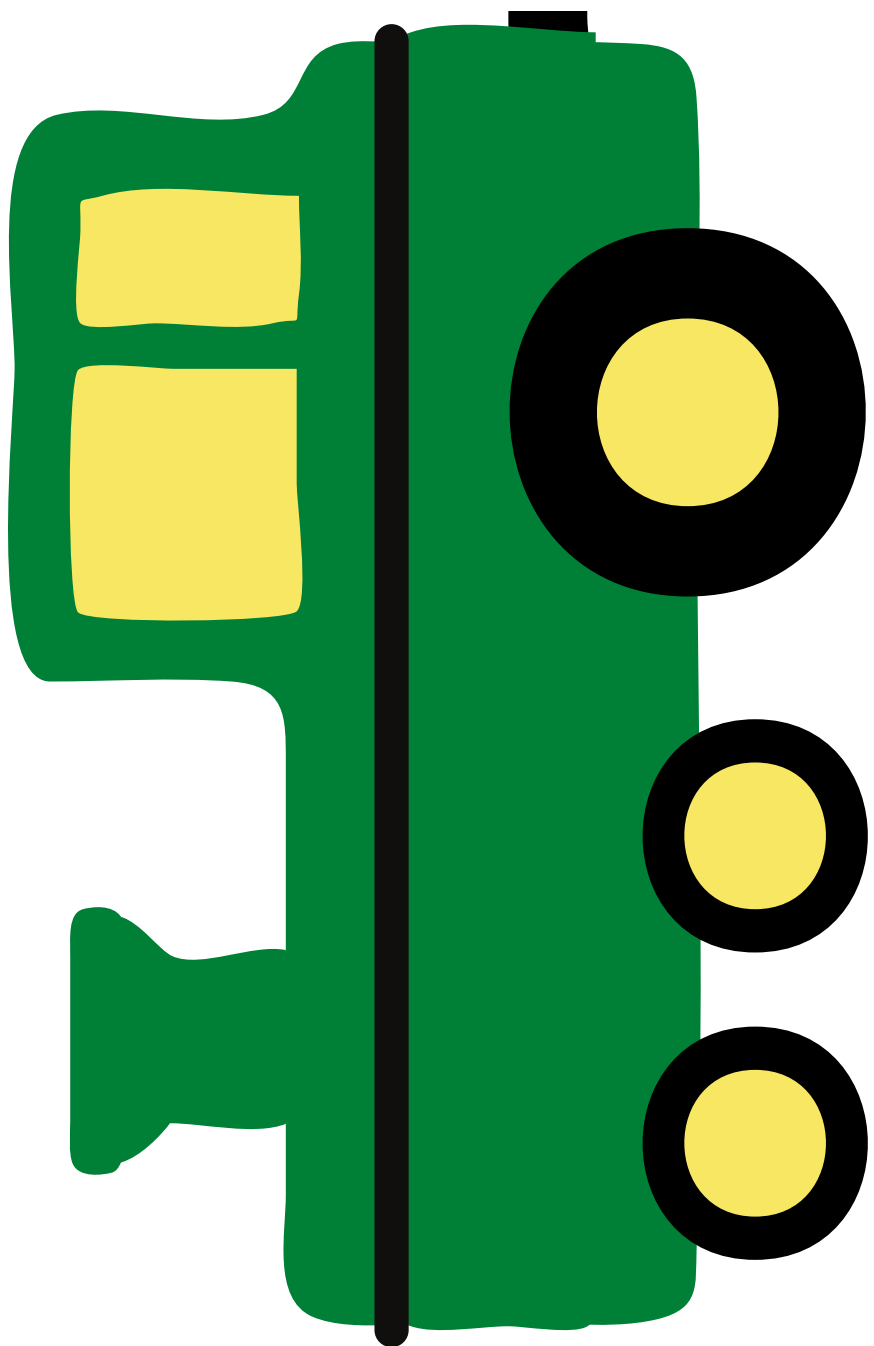

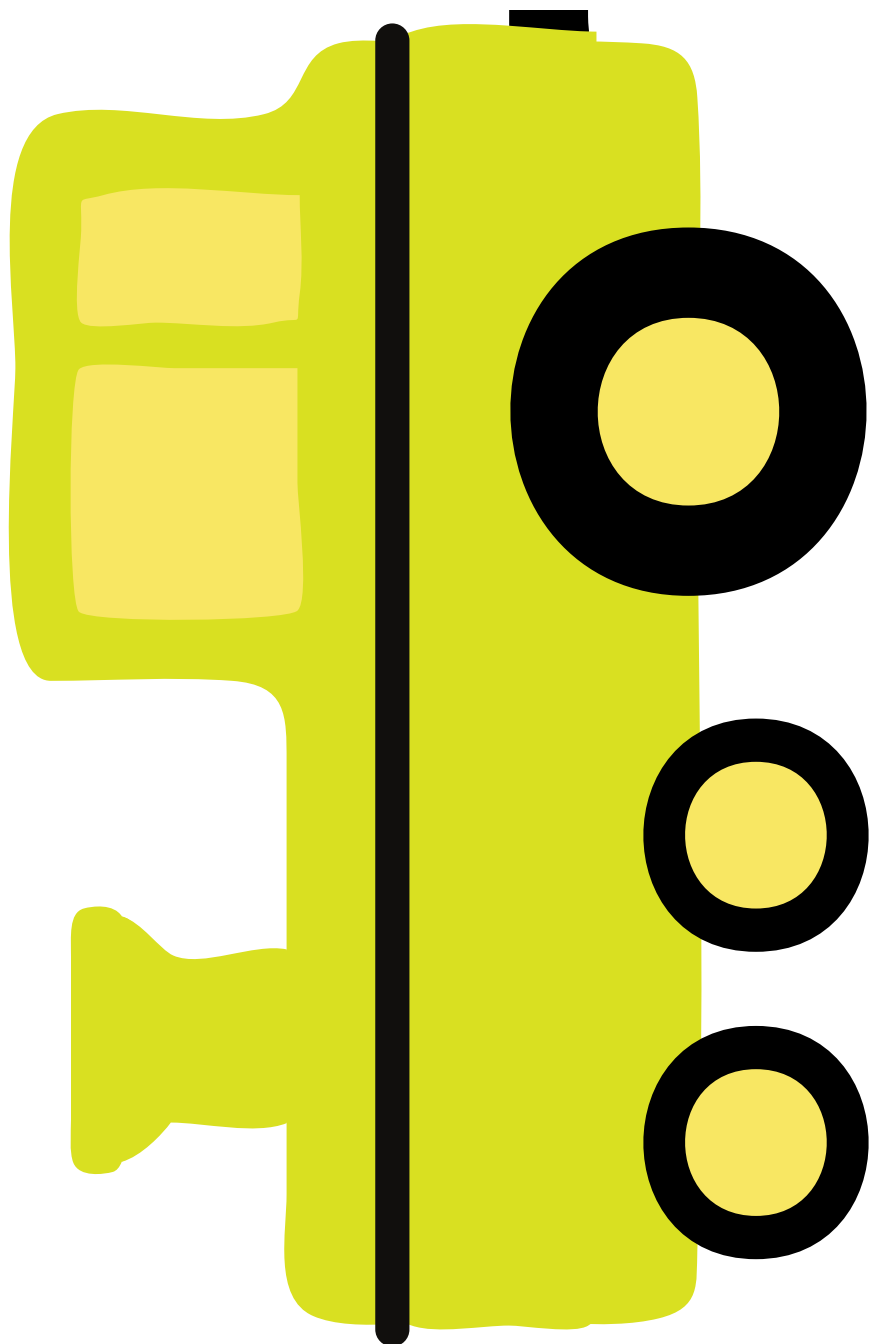

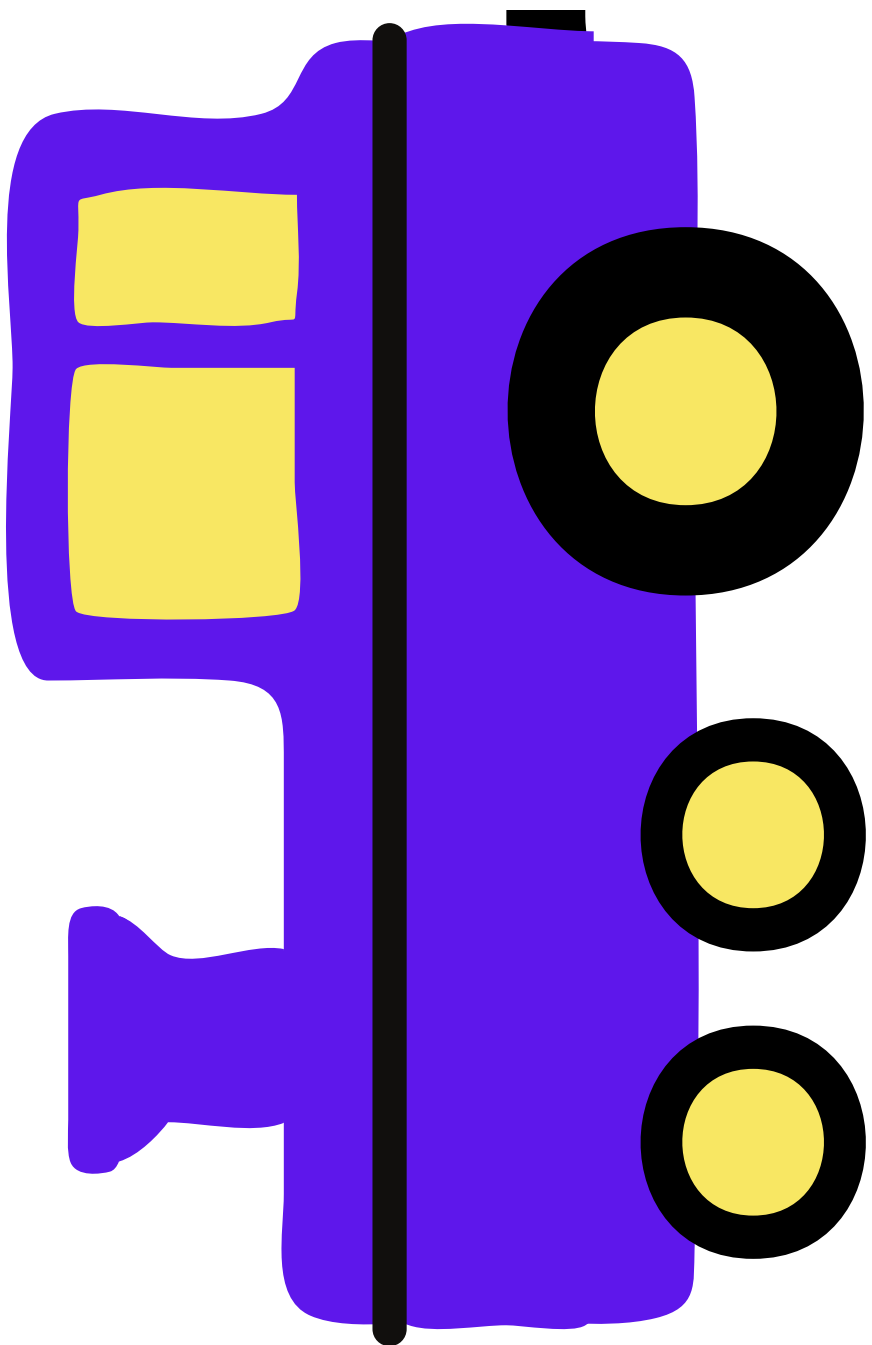

- En la casella on trobem **nombres**, cal verbalitzar quin nombre és i posar en un pot tantes coses com representa.
- En una de les caselles trobaran una **seriació**, però... algú  ha fet trampa, localitzem i corregim l'error. 
- Ens queden dues caselles, on experimentarem amb els conceptes **dins-fora**: una capsa, peces de dos colors, un color dins i un fora i **gran-petit**: dues capsas de 2 tamanys i ossets de 2 tamanys, classificar segons tamany.
- Guanya qui arriba primer a l'**estació de Lleida**.
